Hundreds Chart Activity Pack

INDEPENDENT MATH LEARNING CENTERS

Hundreds Chart Activity Pack

INSTRUCTIONS FOR USE:

DRY ERASE MARKERS: Laminate charts or slip into sheet protectors; students fill in missing numbers

NUMBER TILES: Students place cut-out number tiles (included in this packet) on chart to represent missing numbers. (Hint: I use velcro "coins" with the tiles. I found this made it easier to keep the small pieces together and helped support my students with fine motor needs).

INCLUDED IN THIS PACKET:

- 8 colorful Hundreds Charts with 20 missing numbers
- 1 completed Hundreds Chart for reference
- 1 Black/White Hundreds Chart to cut for number tiles
- 8 worksheets to extend practice
- Assessment Tracking Sheet

Please check out my free 0-99 and 1-120 chart in my store!

Name: _____ Date:_____

Counting Assessment:

- Highest number student can count by 1's ___
- Skip counting to 100 by 2's ___/50
- Skip counting to 100 by 5's ___/20
- Skip counting to 100 by 10's ___/10

Number Identification: ____/10 (using numbers below)

11	25	47	68	72
